

Wendy & Lisa "Song About"

Visit "[Song About](#)" on MotoLyrics.com

It makes me want to cry
Thinking about you
"Beautiful" you said
The way you shook your head
So strange, that no one stayed
At the end of the parade

This is just another song about it
This is just another song about

Standing next to me
Imagine that it's true
You where singing songs
About life or doom
I was singing songs to you

This is just another song about it
This is just another song about

I gave colors to you
You washed my heart
With many dreams
Dreams I'd never seen
The pain of my spirit
The pain of my heart
Don't ever tell me
To let it all go

This is just another song about it
This is just another song about
