A long time ago
Can you see the lightning coming?
I saw your face
Free the child
I fell in love
From pain and suffering
A fatal mistake

I still don't know
If you're afraid
But, it's you I can't shake
Don't be sorry

Leave no trace
Stay baby stay
Love the blues away
Stay baby stay, love me

Don't go away
See the tears
Stay baby stay
Of man and dreams

(Hold him) hold him
You didn't even know
Close to set him free
Three years ago
(Blues him away)
I drank from your smile

I lived for your love
If you're afraid
To have simplified my love
Don't be sorry
Would have struck me no gold
Leave no trace

Love the blues away
Stay baby stay

Stay baby stay, love me
White and black

Don't go away
Don't want to see
Stay baby stay
The danger, if they don't agree
Now that you're mine
If you're afraid
It's something to see
Don't be sorry
Nobody knows but you and me
Leave no trace
The way you hold me
Love the blues away
Sets my heart free
Stay baby stay
Stay baby stay, love me
Don't go away
Stay baby stay

Stay Stay baby stay together
We'll find a way
Stay baby stay

More than three years ago
And so, many tears
Long lonely days
And, color filled nights
You just have to tell me
Everything is alright, stay

Stay baby stay
Stay baby stay, love me
Don't go away
Stay baby stay

Together we'll find a way
