Chorus:

Homeless child, put your arms round me

Got to find shelter at times like these

Don't need no conscience to know how it feels

Homeless child, put your arms round me

Walking like a gypsy, just trying to be free

Hunted and haunted by the things you see

promise to the Lord above

Got to find rescue and somebody to love

Gold and diamonds: don't give me none

Keep on walking 'till the setting sun

Don't need no nation, don't follow no one

Homeless child, where did you come from?

Hey now, you don't have to walk alone

Hey now, when you're a long way from home

Hey now, what's going on?

Hey now, where are you coming from?

Chorus
