Well I'm feeling like my head's in the clouds

I don't want you anymore

And I'm feeling like I'm crying aloud

Where's the girl I waited for

Have yourself a good time

But don't forget about me

When you're at your worst now baby

I'll be the one you need

Well I'm feeling like my feet are on the ground

And I'm knocking at your door

And I'm looking but you're nowhere to be found

Where's the girl I waited for

Have yourself a good time

But don't forget about me

When you're at your worst now baby

I'll be the one you need

I can't stand to be around you girl but I'll love you

'till the end of time

Would have given my life for you but suicide is

not a crime
