Shawty vee on the track you nommsayn

you are my (A-n-g-e-l)

YOu are my (A-N-g--el)

you like my de-demmm de de de dum..  
want to give you love want to give  
all everybody talkking about we itself  
i am yours you knoe

i said i want to give you love want  
to give you everything because yuo  
know who you are to me your my  
A-N-G-E-L and i love you babe

i dont realli gotta think twice  
when i come upon the grind becuase  
yuo know just what it is

you my baby and i love you and no  
questions about this here  
i just gave you everything yuo  
wanted gave you all my love  
you aint gotta think twice when  
you lookin up above

If I could be your angel  
Your angel, Your angel  
Protect you from the pain  
I'll keep you safe from danger  
You'll never hurt again  
I'll be your a.n.g.e.l  
I'm gonna be your a.n.g.e.l  
I'll be your angel

Just like the moon  
I'll step aside  
And let your sun shine  
While I follow behind  
Cause baby what ya got

You deserve all the props  
With everything I'm not  
Because if you do  
Tell me what you wanted me to do  
I'll make you great to be a man  
With a woman who can stand  
On every promise given  
Making vows to please her man

If I could be your angel  
Your angel, Your angel  
Protect you from the pain  
I'll keep you safe from danger  
You'll never hurt again  
I'll be your a.n.g.e.l  
I'm gonna be your a.n.g.e.l  
I'll be your angel

Tell me why there's so many good men  
And the world's misunderstood  
He's a dog, he's no good  
I wish somebody would  
Disrespect my man  
You're gon' have to come see me  
I fight hard for my baby  
He's all that I need

So if you got a good one  
Put your hands up,  
Come on girl and stand up  
Go ahead lift your man up  
Get up  
If you got a good one  
Put your hands up  
Come on girl and stand up  
Go ahead lift your man up  
Get up

If I could be your angel  
Your angel, Your angel  
Protect you from the pain  
I'll keep you safe from danger  
You'll never hurt again  
I'll be your a.n.g.e.l  
I'm gonna be your a.n.g.e.l  
I'll be your angel

Thanks to Vina
