(Audio 2 remix)

(Let's have some fun y'all)

[ VERSE 1: MC Peaches ]

First let me start this off by sayin yo  
With the mic and a def beat, now I'm good to go  
To Bumrush this beat First Priority style  
Yo, I can get with this and I can get wild  
But I don't, I plex, that's how I like to do it  
No need to say 1-2 on the mic, I just jump into it  
And say a rhyme, either long or quick  
The length doesn't matter, as long as it's a hit  
Hard and sweet combined like a package deal  
When I'm on the mic no need to wonder cause you  
know I will  
Say somethin that will get the crowd hype  
So there's no time to sleep with MC Peaches on the mic  
Cause you might miss somethin that you needed to  
hear  
Some act bold but still they fear  
What I'm sayin, the style that I'm displayin  
Playin my cards right and only slayin  
MC's that act funny and cross my path  
But I still stay calm, I don't riff, I just laugh  
I never waste my time battlin  
Just like a car MC Peaches is travellin  
Or rather movin 100 beats per minute  
Yo, cruising and droppin rhymes that I can say are  
debonnaire  
And if you can't hang, then don't come near  
Cause you might get caught or dropped  
By a rhyme that I'm sayin, you know it's straight up hip-  
hop  
Some like to burn, others say they execute  
But when I'm on the mic the only purpose is to get loose  
Rockin funky lyrics while the def beat runs  
I roll correct cause dope is how it's done

(Dope is)

(Girl you was addicted to) --> MC Lyte

[ VERSE 2: MC Peaches ]

Stay out the jungle if you know you can't swing from a vine  
Don't play yourself and grab a mic if you know you can't rhyme  
MC Peaches, the one with the gift of gab  
To rock a crowd with the rhymes that you wish you had  
Not quiet, but not really loud  
Connin all the guys with the way I smile  
If you're a cutie, to get my number you have hope  
But if you're not and you're wack it's a straight up nope  
Never clearin my throat on the mic cause that's rude  
Ruff, rugged rhymes but still smooth  
Some speak low on the mic and some mumble  
I'm crispy clear and my voice'll never crumble  
And the beat will keep goin till my rhyme is done  
I keep searchin for my equal but can't find one  
With the potential, the hypeness to get the crowd to holler  
I can diss a MC on the mic, but why bother  
Wastin my time exchangin rhymes with a sucker  
Face to face on the mic recitin rhymes to one another?  
Nah, that's not my style, that is for a amateur  
But one will try me and I will have to damage her  
Or him, two or three so maybe even them  
Have the posse in the place in case some riffin begins  
We can go toe to toe, yo, you know I won't run  
Cause dope is how it's done

(Dope is)

(Girl you was addicted to)

(Do what you want)

(Do it everyone)

[ VERSE 3: MC Peaches ]

Some girls' place is in the kitchen but mine is on the mic  
Gettin loose at a party and keepin the crowds hype  
Is a neccessity, my First Priority  
To avoid all static, yo, don't even start me  
Riffin or dissin cause you'll be dismissed  
Exempt if you even try to attempt  
To pick up a mic and become a challenger  
Clear my path if you can't handle a  
Beat like this, a MC like me  
If you must play games you're better of playin lottery  
I go smooth but I like to attack  
I'm not a gangstress cause I'm too pretty for that  
Some say I'm on a ego trip and my head is souped

But do I really have to be conceited just because I'm  
cute?  
They're buggin, I can flautn and act the way that I want  
to  
Don't let the way I wink my eye at your man taunt you  
Anyway, the weak will fade, the strong will go on  
And if you really got static we can meet later on  
Feminine but still hard as they come  
"Commin Straight Rollin Hard", playin second to no one  
Rockin funky lyrics while the def beat runs  
I roll correct cause dope is how it's done

(Dope is)  
(Girl you was addicted to)
