- traditional

All my friends fell out with me  
because I kept your company  
let them say whatever they will  
I love my love with a free good will

Chorus:

1 I love  
2 he loves  
3 he's true to me

They tell me he's poor  
and they tell me he's young  
I tell them all to hold their tongue  
if they might part the sand and the sea  
they might part my love and me (Chorus)

It's over the mountains he must go  
because his fortune is so low  
with an aching heart and a troubled mind  
for leaving his love so far behind (Chorus)

It's when the fires all cease to burn  
and when the seas to ice to turn  
when all the rocks all melt in the sun  
my move for you has just begun (Chorus)
