Visit "[DON'T GO IN THE WATER](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Cosy Sheridan: acoustic guitar & vocal

John Pierce: bass

Ben Wittman: drums

Rick Harris: electric guitars

they closed the mine in this town; it made uranium  
they left the tailings in a pile where the river bends  
now the Colorado curves in a poisonous smile  
don't go in the water down below the pile  
this river feeds Phoenix; it waters LA  
it's in the lettuce they bought in Chicago today  
and the tourists will play for miles and miles  
in the water down below the pile  
arsenic, acetone, methylene chloride  
come run the rapids with the lead and the cyanide  
take a big long drink of this acceptable risk  
you're down below the bottom line of their cost analysis  
it costs too much to clean, too much to move it  
it's somebody's fault, but it costs too much to prove it  
so we'll cover it up; hope it goes away in a while  
with the water down below the pile  
bottle your water, move where the air is clean  
you might not be downwind, but we're all downstream  
in the grocery store in the produce aisle  
we're in the water down below the pile  
they closed the mine in this town; it made uranium  
they left the tailings in a pile where the river bends  
now the Colorado curves in a poisonous smile  
don't go in the water down below the pile  
For more information on the Atlas Mine's uranium  
tailings pile on the Colorado River, contact the Grand  
Canyon Trust at 520/774 7488.
