I'm just fine, you got me looking on the bright side
You got me looking
You got me looking
I lost my fear because fear is never living
You got me looking
You got me looking

All these promises were made
Hey I'm living full stride
I will get this right tonight
(Ow ow o ow)
Hey theres movement in me that runs very deep inside
(Ow ow o ow)

My old man told me life is just beginning
You got me looking you got me looking
I climb these stairs but they always leave me empty
You got me looking
You got me looking

All these promises were made
Hey I'm living full stride
I will get this right tonight
(Ow ow o ow)
Hey there's movement in me that runs very deep inside
(Ow ow o ow)
Hey my feet found the beat they dance through the
street tonight
(Ow ow o ow)
Hey there's movement in me that runs very deep inside
(Ow ow o ow) I'll I'll run to you (ill run to you)

Hey I'm living full stride I will get this right tonight
(Ow ow o ow)
Hey there's movement in me that runs very deep inside
(Ow ow o ow)
Hey I'm living full stride I will get this right tonight
Hey there's movement in me that runs very deep inside

I'm just fine I'll be looking on the brightside
