I remember when we were kids  
Takin' chances, all the crazy things we did  
We'd race our bikes beside the railroad tracks  
And chase that train like it was never comin' back

Well I'm still chasin' that train  
Still chasin' that train...

One by one, my friends all settled down  
Raisin' families with a house in town  
And though they laugh when we recall old times  
They look at me with disbelieving eyes

Cause I'm still chasin' that train...

Well, who'd have guessed that I would play this part  
Nothin's cured me of a restless heart  
Forever runnin' in the rain  
Still chasin' that train

Twenty years have disappeared somehow  
The tracks are overgrown and rusted now  
But in my mind I still can hear the wail  
And in my heart I know when all else fails

I will be still chasin' that train  
Still chasin' that train
