She's a rocker  
She takes after me  
And she's a roller  
Runs in the family  
she's a rock 'n roll baby  
A real gone twister  
But I'm telling you, Mister  
Don't you mess around with  
My little sister

I don't know you  
but I know your kind  
I know I'm right  
'Cause I can read your mind  
I know you think  
You can't resist her  
But I'm telling you, Mister  
Don't you mess around with  
My little sister

I promised the folks  
I wouldn't keep her out late  
Because she's too young to party  
Too young to date  
you take your hands off her  
Find yourself another  
Or you'r going to have to answer to  
This Big Brother

And now I tell you  
I ain't had fun all night  
'Cause all you fella  
Keep trying to treat her right  
She may blow your mind  
Like an old transistor  
But I'm telling you, Mister  
Don't you mess around with  
My little sister
