She's got the looks that could kill
And a smile that stops traffic

She's got the eyes that can heal
She makes me feel so fantastic

She knows what drives me insane
But it doesn't even matter

Cause she'd never drive me that way
I'm so glad that I have her
She's perfect for me
And I'm perfect for her

I'm not a gamblin' man
But this time I'm sure

Cause the way that she looks
At me with those eyes
ÃfÃ,Ã,Ã
Is enough to make me take a roll
with the dice...
And you know how I do,
I'll risk it all for you

chorus

Tell me what I've gotta do
Do to get through to you
Tell me what I've gotta say
I swear that I'll say anything

Things are gettin' better now
Because you're finally here with me
Exactly the way it's meant to be
end chorus

She smiles even when
My jokes are a dud

And she doesn't call for a reason
She calls just because.
And she laughs when I'm wrong
