Buy this with a so long good night I wish.
You this, all the things that you're hiding from.
Hide me in a hold stowed away from nightmares.
They lived here longer than I have.

And I wish you the best(3X)
But I wish.

Ba-da-do-da-da-da

With the world I'll turn this microphone,
Till the day your heart explodes,
or the day you get old.

In these precious steps to warn this fit
I will carry you till then from beginning through the end.

I am only wishing you the best.
Background: I been hoping one way to get back to her
I am only wishing you
I am only wishing you(2X)

Ba-da-do-da-da-da

When I get to hold and see you
'til then
When I get to hold and see you
'til then
