Where's my Smith and Wesson
What did you do with it?
Find my Smith & Wesson or else
If you don't search for it
I'm going to crack your head with my karate stick

You better find my pistol
You better find my pistol
You better find my pistol
You better find my pistol

Where did you hide my Smith & Wesson?
Where did you hide it at?
I know one thing, you asshole
Find my pistol or I'll crack your head
With my karate stick

You better find my pistol
You better find my pistol
You better find my pistol
You better find my pistol

Look in your closet for my Smith & Wesson
Look in your dresser drawer for it
My Smith & Wesson better come up
If it doesn't come up, I'm going to crack your skull
And put you in the hospital

You better find my pistol
You better find my pistol
You better find my pistol
You better find my pistol

McDonalds, what you want is what you get
