KIM

Now

Up in the northern land

Wow!

They've started struttin' and

How!

Soon as they hear a band

Ev'ry man's daughter steps

To muddy water steps!

It's gettin' hotter in the north every day,

It's not the temp'rature that's makin' it that way,

It's 'cause they're dancin' all the time

The dances of a warmer clime.

If you want lovin', gals, you must learn to shut;

They leave you cold unless you do nothin' else but!

Up on the levees of Broadway

It's getting hotter ev'ry day!

The levee shuffle of the south

Has traveled north by hoof and mouth,

Makin' our feet slow down,

Doin' those neat, low-down

Twistin' and turnin' steps,

Blazin' and burnin' steps!

If you want lovin', gals, you must learn to strut;

They leave you cold unless you do nothin' else but!

Up on the levees of Broadway,

It's gettin' hotter every day!
