Eternal wastelands lie in front of us
Just as we wished for
We're breaking the boundaries
Between reason and hubris

Now stand and receive your failure
As the flames burn out
The ashes sums up
Your revelation

Attack for freedom or defend from what?
Disintegrate or manipulate
The lesson of violence is the fall of an empire

A conflagration, a superior state
Suffer the children and make no resolve
I've seen my fate in the arms of the merciless
Out comes aggression, out comes the blood

To you a grand design of apocalypse and fear
In me war machines becomes forever the future
Within glimpses brighter than a thousand suns
Reigns the doctrines of fear supreme

Harvest of the machine
Attack for freedom or defend from what?
Disintegrate or manipulate
Deep in me

Now stand and receive your failure
As the flames burn out
The ashes sums up
Your revelation

Now watch them all die
Harvest them like worthless commodities
I've seen my fate: I've been bled for your dreams.
I've seen what lies at the end of the road
Out comes aggression, out comes the blood

To you a grand design of apocalypse and fear
In me war machines becomes forever the future

Within glimpses brighter than a thousand suns
Reigns the doctrines of fear supreme

Harvest of the machine
