It's an omen  
It's an omen  
It's an omen

Now the writing's on the wall  
It won't go away  
It's an omen  
You just run out of automation

Now the writing's on the wall  
It won't go away  
It's an omen  
It's an omen  
It's an omen

Now the writing's on the wall  
It won't go away  
It's an omen  
You just run out of automation  
Now, now

Now the writing's on the wall  
It won't go away  
It's an omen  
You just run out of automation

Now the writing's on the wall  
It won't go away  
It's an omen  
It's an omen  
It's an omen

Now  
It's an omen  
Now

Now  
Now  
Now
