It's okay, it's alright
It's okay, it's alright

All alone, summer night
With words you said to me
Our lives lead other lives
When all our senses are revealed

It's okay it's alright
It's okay, it's alright

In Hollywood, the rivers fly
In Hollywood, the sky's alive
In Hollywood, your fears come out to play

What have you become, a fool in love
Around and around a million ways to get there
And we don't care, who would believe
And all those things we said that night

It's okay, it's alright
It's okay, it's alright

In Hollywood, the rivers fly
In Hollywood, the sky's alive
In Hollywood, your fears come out to play

Hollywood
I love
I love you
I love you
I love you
I love you

In Hollywood, your fears come out to play
In Hollywood, the rivers fly
In Hollywood, the sky's alive
In Hollywood, change your life today
