I wanna see you come back and meet me  
I'll wait you by the next bus stop  
I'm gonna get you after the school  
and then we'll see the same things on our way home

Now there's a man in a van and he followed me  
he took a step and a turn and then hollered at me  
he said that "love is a dangerous thing"

I knew my heart couldn't beat any faster  
when she knobbed my hair and said  
"Go close your eyes, my little darling"  
But when I turned 'round she was gone

Now there's a man in a van and he followed me  
he took a step and a turn and then hollered at me  
he said that "love is a dangerous thing"

Nobody knew where I went to hide away  
You came along but I love you anyway  
A broken heart is a dangerous thing

I wanna see you come back and meet me  
my heart don't make any sound on it's own
