Turn me around  
And then fall away

Turn me around  
cos it is your case

Lovers and faces they change  
But they won't change your name

Cos I have been trying to get you  
But it won't stay the same

I want to be in a fairytale  
I want to be in a story where nobody comes around

Is it people that put it away?  
If I'd know you then I'd want you to stay

I want to be in a fairytale  
I want to be in a story where nobody comes around

And I don't want to be alone  
No I don't want to be alone
