Contemplating all my wrongs  
Intercepting all my thoughts  
Locked inside your fragile walls  
You don't know me  
You don't own my soul  
Did you think I'd give it up?  
Are you crazy?  
Lose what I've become  
Check my tone  
You've pissed me off  
I don't know you  
You don't know me

Yeah yeah oh yeah  
So you wanna get loud with me  
So you wanna throw down with me  
So you wanna go  
Yeah yaeh oh yeah  
So you wanna get loud with me  
So you wanna throw down with me  
So you wanna go

Anticipating all the cost  
Feel the weight of all I lost  
Then you place me under oath  
You don't know me  
You don't own my soul  
Take your shots it's all been done  
Your so crazy sitting on your throne  
Check my tone you've pissed me off  
I don't know you  
You don't know me

Chorus

I see angels all around me you can't touch me

Chorus
