You say you're angry as me i see  
You say you're sorry i dare you to be  
The girl that you thought is not what i am  
I just need to feel good visually  
You say you're angry as me ,i see  
You say you're sorry i dare you to be  
The girl that you thought is not what i am  
I just want your love, your company

I just can't stop my fascination  
Boy you cause only indisposition  
I just can't stop this fascination  
In my head only contradiction
