Chorus:

This land is your land, this land is my land  
From the northern highlands to the western islands  
From the hills of Kerry to the streets of (Free) Derry  
This land was made for you and me

Chorus

As I was walking by the Shannon water  
Hand in hand with my little daughter  
The church bells ringing, and the children singing  
This land was made for you and me

Chorus

So I walked her home by the old church steeple  
Proud of my country, proud of my people  
Of the men who tried there, of the men who died there  
singing  
This land is made for you and me

Chorus

Then I climbed a mountain, saw the crystal fountain  
And heard a great roar from the rocky sea shore  
Her eyes were gleaming, she cried oho Daddy  
This land was made for you and me
