

Prototypes, The "Kaleidoscope"

Visit "[Kaleidoscope](#)" on MotoLyrics.com

Everywhere
Confessions fill you in
Obsessions finally
Will have a tragic truth from the sky to you

Kill me now
But slowly through you
You only talk to me
A little sacrifice for bad advice

I picture the love from the pieces of you
But you turn it around for a different view cause
Loves like a Kaleidoscope
In a changing world, in a changing world
Love hangs by a fragile hope
In a changing world, in a changing world

K k k k k kaleidoscope
K k k k k kaleidoscope
K k k k k kaleidoscope
We can turn it around now
It's still not there

Hold me now
Forever I want an end
Together talk is cheap
I could fall for you if you want me to
Every time I see you sometime
And change my own mind
We could have it all but the colours fall

I picture the love from the pieces of you
But you turn it around for a different view cause
Loves like a Kaleidoscope
In a changing world, in a changing world
Love hangs by a fragile hope
In a changing world, in a changing world

K k k k k kaleidoscope
K k k k k kaleidoscope
K k k k k kaleidoscope

We can turn it around now
It's still not there

I picture the love from the pieces of you
But you turn it around for a different view cause
Loves like a Kaleidoscope
In a changing world, in a changing world
Love hangs by a fragile hope
In a changing world, in a changing world

K k k k k kaleidoscope
K k k k k kaleidoscope
K k k k k kaleidoscope
We can turn it around now
It's still not there

Love hangs by a fragile hope
In a changing world, in a changing world
(It's still not there)
K k k k kaleidoscope
We can turn it around now
It's still not there
