Well it's red-red, red booger red  
Red-red, red booger red  
Red-red, red booger red  
Red-red, red booger red  
Her eyes are green and her hair is red  
Booger red, booger red, booger red, booger red  
She's four foot five and, man, alive  
She operates on fluid-drive  
She never stops to look at the clock  
All she wants to do is rock  
Her eyes are green and her hair is red  
Booger red, booger red, booger red, booger red  
She starts in rockin' when the sun goes down  
Don't stop rockin' till she's way up town  
Now all the boys are in the air  
She says she'll meet 'em, but she don't say where  
Her eyes are green and her hair is red  
Booger red, booger red, booger red, booger red  
Red... red... red... red  
Her eyes are green and her hair is red  
Booger red, booger red, booger red, booger red

If you wanna go out on a spree  
Dial on your telephone one-one-three  
Tell information, you don't know her name  
You gotta have a date with that real gone dame  
Her eyes are green and her hair is red  
Booger red, booger red, booger red, booger red  
Red... red... red... red  
Her eyes are green and her hair is red  
Booger red, booger red, booger red, booger red  
Well it's red-red, red booger red  
Red-red, red booger red  
Red-red, red booger red  
Red-red, red booger red
