

Side Lyrics by Squad Five-0

"Side By Side"

Visit "[Side By Side](#)" on MotoLyrics.com

you and me growin up together
side by side it'll last forever
we'll make it last, you know that i mean it
i pray to God that nothing comes between us
i never thought that i could feel this way
about another human being
and i know i said i'd never write a song like this
but something inside of me has brought me to it
and so i wrote this song for you!
growing up you've always been by my side
to hell and back we've been there at least a million
times
now i know you're the only one for me
in God we trust, true love and purity
i never thought that i could feel this way
about another human being
and i know i said i'd never write a song like this
but something inside of me has brought me to it
and so i wrote this song for you!
