"Get a Life"

Visit "[Get a Life](#)" on MotoLyrics.com

Is it right, the way we do each other?
We're only human, you and I and the ones that we love
Talking cheap exploiting what's uncovered
If god is our witness then she'd say

Why don't you get a life?
Why don't you get a life?
Get a life
Get a life
Since I met you, been pulling knives from my back
You think you know me, but I think you're on crack
We're in this together, you and I and the ones that we
love
Why don't you get a life?

If god is our witness then she'd say
Get a life
Why don't you get a life?
get a life
We're only human, you and I and the ones that we love

If god is our witness then she'd say
Why don't you get a life?

Why don't you get a life?
Get a life
Get a life
