There's a place for just the two of us,
There's a love for us to share,
Somewhere special for the two of us,
Wishing on my star,
That I don't spend a lifetime without you.

She's gonna make it alright and hold me inside,
She's all on my mind.

If I thought for just one second girl
You'd be seeing someone new
And if I didn't know you better girl
Wishing on my star
To heal this empty feeling without you.

She's gonna make it alright and hold me inside,
She's all on my mind.

She's gonna make it alright and hold me inside,
She's all on my mind.

Look in my eyes
And take what you wanna,
Look in my heart,
There's a place you.
Some other loving,
It doesn't make a bit of sense
When you're on my mind,
You stole my heart.

She's gonna make it alright and hold me inside,
She's all on my mind.

She's gonna make it alright and hold me inside,
She's all on my mind.

She's gonna make it alright and hold me inside,
She's all on my mind.
