From that open mouth
Through those burning teeth
By that lashing tongue
You have the power of speech

Vibrating air
From lungs that are pumping
Sets those vocal discords
That sets your heart jumping

Got a bright green light
Flashing in my face
Instead of someone's eyes
I get a visual display

Used to be flesh and blood
Right in front of me
Now a picture comes up
On a video screen

Whoa, where do we take it from here?
Don't you know it's not right
To remain in this silence

I want you to talk to me
I'm getting no reaction
Won't you talk to me?
Talk to me
I'm getting interaction
Won't you talk to me?

You're an ATM from BCCI
An automate on, drive a GTI
Keep your shield intact, down reality
You're in another world, you don't listen to me

You're a rhythm machine
You've got perfect time
Recline your seat
And you'll turn on a dime

Robotic voice, aluminum frame

I'm so glad that you asked
Yes, I'm glad that I came

Whoa, where do we take it from here?
Don't you know it's not right
To remain in this silence

I want you to talk to me
Giving you my number
Won't you talk to me?
Talk to me
Getting into trouble
Won't you talk to me?

Talk to me
Giving you my number
Won't you talk to me?
Talk to me
Getting into trouble
Won't you talk to me?

I want you to talk to me
Getting no reaction
Won't you talk to me?
Talk to me
Getting interaction
Won't you talk to me?

Talk to me, talk to me
Talk to me, talk to me
Talk to me, talk to me
Talk to me, talk to me
Talk to me, talk to me
Talk to me
