I pay the price for cheap advice

Sick of leaving in the morning with the night you gave away

So now I'm gonna take that all that I can get
With those angel eyes you make saints do sins all the time

Say I'm gonna stay, home and away, well well

When I said I'd catch you when you're falling
I'd have my heart open wide
And you know who's not naive I thought, said following my heart

People say I'm so automatic
People say I'm not so systematic
But when I'm down I'm in manual on
And time and time again I walk on by with the look of love

And with those angel eyes, oh oh
You set me on fire
And with those angel eyes, oh oh
Oh now baby

The saddest thing I've ever seen on my TV screen
Was a dying man who died for his team
The toughest thing I've ever heard
Was that newborn scream in this naked world

People say I'm so automatic
People say I'm not so systematic

When I'm down I'm in manual on
Time and time again I walk on by with the look of love

And with those angel eyes, oh oh
You set me on fire, baby
And with those angel eyes, oh oh
Oh now baby

Gonna tell the world, gonna tell the world

Gonna tell the world, gonna tell the world I love her
Gonna tell the world, gonna tell the world
Gonna tell the world, gonna tell the world I love her

Say I'm gonna stay home and away, yeah yeah
Should a little loving make you smile girl
Say I'm gonna stay home and away, yeah yeah

People say that I'm so automatic
People say I'm not so systematic
When I'm down I'm in manual on
Been all around those edges but it never been love
It never been love, they thought it never been love,
never been love

You set me on fire baby
And with those angel eyes, oh oh
You set me on fire, fire

And with those angel eyes
And with those angel eyes
And with those angel eyes
Everything's gonna be alright
Everything's gonna be alright now baby
