Everything That 'Cha Do
Wet Willie

oh depression
got you guessing about the thing that you do

don't you let it
you can bet it
she'll make a fool outa you

when confusion keeps ya loosin'
and you're searchin' for a find

turn this madness
into gladness
keep these words in your mind

everything
that you do
will come back to you

eyes wide open
see the motion
of the problems that go down

you can't stop em
better drop em
don't let em turn you around

when you hear
that voice inside
why don't you let it be your guide

don't you know
you just can't go
wrapped up in your foolish pride

Clark
