I was feelin' tired and troubled  
I was feelin' down and out  
I was gettin' lost in a shuffle  
I was full of pain and doubt

Lord, I had to find me somethin'  
I had to have a remedy  
Then I heard the jukebox jumpin'  
With a silly melody

I heard, dixie rock and that dixie roll  
Had a real good beat, yes it did  
And a whole lotta soul  
Oh, yeah

Come on, play some good time music  
Just the way we used to do  
Any old way to choose it  
You know, you just can't lose

So gimme some nasty pickin'  
Some blues on a black guitar  
Don't you dig that dixie lady  
No matter who you are

You love dixie rock and that dixie roll  
Got a real good beat, yeah  
And a whole lotta soul

I love that dixie rock  
It's got that steady roll  
And it feels so good y'all  
Hey, don't you know

But I can't tell you  
What you already know  
You know I can't

Such a good feeling  
This thing called  
Rock and Roll

So, just let it take you  
Where you wanna go  
Where you wanna go

If they're gettin' tired of trouble  
If you're feelin' down and out  
Listen to this smokin' shuffle  
When we're playin' way down South

You can hear me down in Alabama  
We're playin' down in Tennessee  
From Georgia to Louisiana  
They're dancin' to the boogie beat

Of that dixie rock  
And that dixie roll  
Got a real good beat  
And a whole lotta soul

We love that dixie rock  
And that steady roll  
Yes, it feels so good  
Mama, don't you know

I said, yeah  
Yeah, yeah  
I said, yeah

Come on  
Come on  
Come on

Yeah, yeah  
Yeah, yeah  
Dixie rock

Yeah, yeah  
Yeah, yeah  
Dixie roll

Good times, baby  
Play all night, play  
Yeah

Dixie rock
