You need to give love
Another try.
One bad love affair,
You never die?

I know he broke your heart,
Too, girl.
But hey, it's not the end
Of the world.
I'm here to try
To comfort you.
From all the changes
He put you through.

[Chorus:]
I wanna,
Make you feel love again.
Let you know that you got a friend.
I wanna,
Make you feel love again.
I'll stick by you
To the very end.
[End Chorus]

You're afraid of love,
'Cause you was hurt.
He put your good name,
Down in the dirt.

There's so much love,
Inside of me.
I'm gonna give to you,
Once your mind is free (?)

Girl, I know what you've been through.
'Cause you see, I'm tryin' to make it up to you.

[Chorus]

But listen,
You just call my name,
I'll love away your hurt,

And ease your pain.

I can satisfy your desire,
And give you love,
That your body requires.

[Bridge]

I'm gonna,
Make you feel love again.
Let you know that you really got a friend.
I wanna,
Make you feel love again.
I'll stick by you
'Til the very end.

I wanna,
Walk with ya,
Talk with ya,
Yeah!
I wanna, I wanna...
Now now now now...

Walk with ya, baby,
Talk with ya, mama,
I wanna, I wanna...
Hey!

Make you feel love again.
Let ya know that you really got a friend.
I wanna,
Make you feel love again.
I'll stick by you to the very end.

I'm gonna,
Make you feel love again.
I'm gonna,
Make you feel love again.

Again and again and again, baby...
Well!...
Make you feel love again...
