(verse):

When the night is cold

And your heart is too

Carry me in your head

Warm memories cover you like a blanket

So many people, so little time, but we keep on
marching on through this life

Need a strong vessel to ride out the storm, when
lighting it strikes count for thunder to roll

Don't count on no one to carry your luggage, in this life
some hate and others are lovers

But that don't count when your train leaves the station,
don't hesitate to take a bad thing and leave it

I will live my life just how I want to

I won't hurt no one, let my words be my guide and

If I fall don't worry, I'll pick myself up

Worry 'bout you before you worry 'bout me, make sure
you're free in your head before you call someone up

Chorus:

A man could walk down dark roads, never to return

A woman could walk down the same path, but is she
tries, if she tries

She could find her way back again

(verse)

(chorus)

Every Day

Sittin at the bar have yourself a ball and don't give a
thought at all

To those that have gone, gone before their time, never
to return back in line

Oh there goes another one, a hundred dead, a
thousand gone, and you could be the next one my
friend

Lookin at your end, starin down the barrel of a gun at a
bullet

(chorus):

Every day I read about these people who die -
murderers

Every day and it's always before their time - killin us

Every day - keep your head up

Every day I read about these people who die

They got fire, power, take you down and under-
cover police, making raids and holding

free men hostage is not what I meant when I said

I pledge allegiance to country, god, and freedom

Every day I read about these people who kill -
murderers

Every day and they put a new spin on their wheel - killin
us

Every day - keep your head up

Every day I read about these people who kill

(2 nd verse)

(chorus)

Higher

(chorus):

Higher, lower, brimstone, yeah yeah yeah

Higher, lower, brimstone, yeah yeah yeah

Higher's where I flow, lower I don't go

Brimstone is just a joke they made to make you afraid
of love

"

So they say that God is gonna save

God is good and he's so true so there no need to
question it

Then I see the people hunt for blood

If God so good and he the one then how come you're
not spreading love

Love, love, love, love

Love, love, love

"

So, so they say their god is the only one

No, no one knows what follows, so let's come together

Now what they said, what they said was:

(chorus)

Since my youth, they claim to teach the truth

That God is good and God is love and listen kid he
speaks through us

Then the preacher not reapin what he sowed

He never died and seen the light then how could he
know

Know, know, know, know

Know, know, know

Heard, heard them say God is great, so don't you
bother now

Take, take your faith, but don't you say it's the only way

Now what they said, what they said was:

(chorus)
