VIRGIL

I've got a wife, four grown children
I can't afford their education
I been a prison guard for fourteen years
That ain't exactly a vacation

WARDEN

Since he's been here he's followed every
rule
Well I told you my position
The law says he's got the right to go to
school,
We abide by the court's decision

VIRGIL

I got a Winchester 243
I like that gun for deer
Upstate November when the air is free
Smells like hunting season's here

He's the one to keep your eyes on
He's smart yeah and he's quiet
A troublemaker if I ever seen one
Next thing you know it's Attica
And we got a prison riot

There ain't no way that punk gets his degree
And hides behind the Constitution
No way in hell that smart ass spic goes free
Not while I'm in this institution
