Over and under we ride in love with the suicide
Here we fuck with disaster and
Careful has something to hide so come give this trick a
try
Pump it faster you bastard and
Over this mountain you glide
But you're not gonna last If you can't push it past

Hey Nicole
You stole my soul with that cute little bunny hop, Your
radical table top
Oh I wished it would never stop
Hey Nicole
What's that you got is that a black Turbo Diamond Back
A JMC Racing Bike
Damn I wish I had one like that.
Hey Nicole
I was only ten years old

Please leave your cell phone at home
It's just a broken collar bone
Walk it off you big puss
And then get your ass back on the bike
It's time to go lay some pipe
Or just watch me get nice
Ima school you on how to get high
Then go home tell your freinds how you bite all my
style

Hey Nicole
You stole my soul with that cute little bunny hop, Your
radical table top
Oh I wished it would never stop
Hey Nicole
What's that you got is that a black Turbo Diamond Back
A JMC Racing Bike
Damn I wish I had one like that
Hey Nicole
You got this moto licked the Hutch kids are off the list
all the Skyway's are being fixed walky talkies and
stolen shit.

Hey Nicole
Quadangle, PK Ripper, Webco and Mongoose rip
Redline Proline is winning it but Nomura I so the tits.
Hey Nicole I was only ten years old.

Is there a love in your life
Cause I wanna be your wife
It's a bird it's a plane
It's a bicycle up in the sky
You didn't say you could fly
Now I know where I stand and I'm
Tired of life on the ground
Loose my soul when I'm down up your ramp I am Found

Hey Nicole
You stole my soul with that cute little bunny hop, Your
radical table top
Man I hope that you never stop
Hey Nicole
What's that you got is that a black Turbo Diamond Back
A JMC Racing Bike
Damn I wish I had one like that
Hey Nicole
You got this moto licked the Hutch kids are off the list
all the Skyway's are being fixed walky talkies and
stolen shit
Hey Nicole
Quadangle, PK Ripper, Webco and Mongoose rips
Redline Proline is winning, it but Nomura I so the tits

Hey Nicole I was only ten years old
