Cocaine eyes
Been livin the lie
Looks like another big night on the credit card babay

Buttchew makin' em smile
Yeah you drivin' 'em wild

I could sit back and let you do all the talkin' now
couldn't I?

I'm droppin' rhymes to suit the times
Buttchou don't hear me though
And I could be just what you need and you would never
know.
You're way to busy playin' DJ on the stereo ..eo
But you don't spin it like I feel it no

The center of my mind is a dark place that wishes it
wouldn't do what it would
Do what it would
And every mistake that ever made is sayin' I didn't do
what I should
Do what he should
And if you wanna see me smilin' yer gonna hafta
Do something you never would
Do somethin' you never would
Play somethin' good

The bigger the size
The better the prize

Went and gotchoself a big bad life you's a cool kid
ain'tcha?

Yeah but you still got the style
To make the company smile

You just sit back and let em do all the talkin' now don't
cha

You and your crew can shovel shit down at the money

show
Sign for your life and they will get you on the radio
Check out the line around the block and say I told you
so..eo

Yeah but you can't play it like I feel it ho

The center of my mind is a dark place that wishes it
wouldn't do what it would
Do what it would
And every mistake that ever made is sayin' I didn't do
what I should
Do what he should
And if you wanna see me smilin' yer gonna hafta
Do something you never would
Do somethin' you never would
Play something good

The center of my mind is a dark place that wishes it
wouldn't do what it would
The center of my mind is a dark place that wishes it
wouldn't do what it would

The center of my mind is a dark place that wishes it
wouldn't do what it would
Do what it would
And every mistake that ever made is sayin' I didn't do
what I should
Do what he should
And if you wanna see me smilin' yer gonna hafta
Do something you never would
Do somethin' you never would
You never would
