Another year  
A time event  
To take you there  
Another time  
Another time  
Another year  
I make it fail  
Another time  
Some time to kill  
Come back to love  
Return to love  
So don't reap all  
It's a small part  
The friction starts  
Come back again  
Come back again  
Come back again  
Come back again  
Come back again  
Come back again  
Come back again  
She said  
Blow the light away  
Come back again  
Come back again  
You never missed  
I tell you this  
Come back again  
Come back again  
You know how it feels  
My name is clinging so  
Be mine, be mine, be there  
You can't, you can't, you are here always  
Fade away there  
To share today  
You love to know  
Come back again  
Come back again  
Come back again
