Well I, I didn't make no bomb.
And I, I didn't do nothing wrong.
But you came into my house and turned it up side
down.
And now I'm never gonna work in this town.
Why... do you want to bury me?
Well I... was blind but now I see.
You put my face on the silver screen.
The damage is done, everyone has seen.
Why won't you just let me be?
I thought this country was fuckin' free!
Why... do you want to bury me?
Well I... was blind but now I see.
If you can't see the Liberty bell's cracked.
You better take time, keep yourself on track.
'Cause the monkey will see and the monkey will do.
And big brother is watching you!
(Solo)
'Cause the monkey will see and the monkey will do.
And big brother is watching you!
Big brother is watching you!
He's watching you!
Big brother is watching you!
