Purple Hearts
"Celebrate"

Come to the jungle, Get out the city
Leave all you're trouble, bring none of it
See, we came to party. Come in a hurry
Forget the madness, no time to worry
We love to sing and we love to dance
So come sing along and fall in a trance
Kick off your shoes and get to the floor
Got nothing to lose, like never before

We came to have a good time. Celebrate.
We came to have a good time. Celebrate.
We came to have a good time. Celebrate.
We came to have a good time.

Celebrate into the night and all through the day
Everything's all right, come what may
We're under the stars or out in the sun
Yeah wherever we are. We're havin fun

Forget the job and forget the crap
Cuz it don't belong so bring none of that
You bring the girls and I'll bring the boys
And we'll come together. We'll make some noise
The noise rocks the drum. The drum rocks the beat.
The beat rocks the people out in the street.
The street moves the soul. The soul feels the drive.
The drive in the music keeps us alive

We came to have a good time. Celebrate.
We came to have a good time. Celebrate.
We came to have a good time. Celebrate.
We came to have a good time.

Celebrate into the night and all through the day
Everything's all right, come what may
We're under the stars or out in the sun
Yeah wherever we are. We're havin fun

Come tomorrow all is gone and we'll return to home
And in the empty afterglow we all will feel alone
Remember me, oh so sweetly in the time to come

And when you're dreaming dream of me an never be alone

Into the night and all through the day
Everything's all right, come what may
We're under the stars or out in the sun
Yeah wherever we are. We're havin fun

Into the night and all through the day
Everything's all right, come what may
We're under the stars or out in the sun
Yeah wherever we are. We're havin fun

Yeah
