I'm surrounded by liars listening to me like they
understand
So why when I turn around are you laughing at me and
everything I am?
Everybody is hurting inside but everyone's too busy to
see
And all she's worried about is bringing me down in her
mind,
Not concerned with me

This world's wide open,
But I know that nobody's there
My heart is broken,
But you what, nobody cares

I am gonna break without you
My heart's gonna break
I cannot take this without you
My heart's gonna break

I know you're tired of the looks people give in a crowd
They've chained me up in these thoughts and I can't
break out
I can't even get by feeling decent inside
Confidence is a sin to them I can't hide
No I'm not gonna hide, anymore.

This world's wide open,
But I know that nobody's there
My heart is broken,
But you what, nobody cares

I am gonna break without you
My heart's gonna break
I cannot take this without you
My heart's gonna break

This world's wide open
And my heart is broken
So I'm leaving my heart open

'Cause I am gonna break without you
My heart's gonna break
I cannot take this without you
My heart's gonna break
