I'm taking my time  
It's a quarter to three  
I'm clicking my heels  
You know we're runnin' the show  
I turn around, they slippin on me,  
And I'm looking at boy  
(Because you already know)  
That we don't mess around  
You see me with my crew  
You love how we get down  
(You wanna do it too)  
We make a perfect team,  
And boy you know it's true  
So if you're wondering here's what we gonna do

[Chorus]  
We'll be buying out the bar, take over the club  
I got what you want, so give it up  
All my girls are don's, still it ain't enough  
Took over the club  
So tonight we gon' take over the world,  
Take over the world, take over the world  
(Can't get enough)  
So tonight we gon' take over the world  
So baby are you rolling with me  
Might wanna be on my team  
Cause tonight we gon' take over the world

Getting real close, grab my jeans  
Started pulling me close, grind on me  
Like you want it (Want It)  
My body's like a bottle so I flaunt it

(Baby you need)

To take me places where them boys can't go  
We can move mountains, spend a couple hundred  
grand tonight  
Who's coming, I ain't told you what it is  
So baby make your move  
Coz when you make your mind, this is what we gonna

do

[Chorus]

We'll be buying out the bar, take over the club  
I got what you want, so give it up  
All my girls are don's, still it ain't enough  
Took over the club  
So tonight we gon' take over the world,  
Take over the world, take over the world  
(Can't get enough)  
So tonight we gon' take over the world  
So baby are you rolling with me  
Might wanna be on my team  
Cause tonight we gon' take over the world

The only thing missing is a miss's by your side  
I really want you rolling with me (I Said)  
Want it you can get it, boy just tell me what you like  
(Baby it ain't a problem)  
'Cause I get what I need, no it ain't no lie  
Baby that's how it is, when you rolling with the queen  
Don't pay attention to them haters that's behind us  
And if they trippin' just tell 'em that they can find us

[Chorus] [2x]

We'll be buying out the bar, take over the club  
I got what you want, so give it up  
All my girls are don's, still it ain't enough  
Took over the club  
So tonight we gon' take over the world,  
Take over the world, take over the world  
(Can't get enough)  
So tonight we gon' take over the world  
So baby are you rolling with me  
Might wanna be on my team  
Cause tonight we gon' take over the world
