"Innocent"

Oh, oh,
It seems like it's real,
Face it, you know all I feel!
Never remember to sense to..
Never contend it with me.
You want things so bad,
Never knew where it could last.
Just so you know why I'm here,
Not to confuse me with fear,

Chorus:
So I long to be with you,
And I long cause I kissed you, baby!
Oh, I never meant to miss you,
Oh I never meant to miss you!

Say I'm simple; tell me I'm real,
Speak to me I'm down here!
Something you say, the innocent way,
Something you play, over my,

Chorus:
Oh, I long to be with you,
And I long cause I kissed you, baby!
Oh, I never meant to miss you,
Oh I never meant to miss you!
So I long to be with you,
And I long cause I kissed you, baby!
Oh, I never meant to miss you,
Oh I never meant to miss you!

Thanks to Iulia
