Talking about the law
complaining and threatening
Should I be quiet, sit and roll my thumbs
Don't try to scare me I'm unstoppable

Why don't you just spare me from your wining
I am young and I'm hit by the music

Don't treat me like a loser
Don't treat me like a loser every day
Keep me from your problems
Keep me from your problems every day

When I take a break
and go out with my board
you are there to glare at me
you think that I am in your way

Why don't you just spare me from your wining
I am young and I'm hit by the music

Don't treat me like a loser
Don't treat me like a loser every day
Keep me from your problems
Keep me from your problems every day
and keep it fine

Don't treat me like a loser
Don't treat me like a loser every day
Keep me from your problems
Keep me from your problems every day
