With You I shall go all the days of my life  
On the roads of all the world  
With You I shall go all the days of my life  
With my brothers through out the world  
You reached out Your hand  
And my footsteps are in Your steps  
I'll follow You, Oh Lord  
What ever the road may be  
With You I shall go all the days of my life  
On the roads of all the world  
With You I'll serve all the days of my life  
All my brothers in all the world  
With You I'll serve all the days of my life  
All my brothers in all the world  
And I'll go to those  
Toward whom You lead me  
To sing, oh Lord  
Of Your love and Your joy  
With you I'll serve all the days of my life  
On the roads of the all the world  
With I shall go until the end of my life  
With my brothers throughout the world  
Just like You I want to give myself  
To lose and use myself  
for the greatness of my God  
Of Your kingdom of friendship  
With You I shall go till the end of my life  
On the roads of all the world  
With you I'll go all the days of my life  
On the roads of all the world  
With You I shall go all the days of my life  
On the roads of Eternity  
At the gate of Paradise  
You'll be expecting my life  
In Your hands oh my God  
I shall give up my soul  
With You I shall go all the days of my life  
On the roads of Eternity.
