[Fast dance beat] One, two, three, hit it!

Just a touch of love (X4)

Love has been on my mind for sometime now
But you've been the missing link
Never thought it would happen
All this stuff made me think
That love is not for keeps

All I want is your touch
(So, come a little closer)
Once is never enough
Like a bird in the sky
(Your love has got me flyin')
Like the stars in the night
(Beautiful)

Just a touch of love (X 8)

Music will light the fires of romance
So, dance with me forever
You've gotta grab down a lover
Someone to discover
That just a touch of love is all I need

All I want is your touch
(So, come a little closer)
Once is never enough
Like a bird in the sky
(Your love has got me flyin')
Like the stars in the night
(Beautiful)

Just a touch of love (X 12)

[Lead vocal ad lib.]
Just a touch of love (X 8)
[Repeat and Fade]
