You worked through all this trouble now you left the past behind You're winning, you're losing, you're learning You're living your life with inspiration, suffered and you've sinned and now that it's over, you're older, you've learned to depend on your own actions you consider their point of view. Found strength in a person and found out that person was you. This fight inside, this battle without end with strength and motivation you'll never run again Never run away never run away, never run away, you've got to stand your ground and see this through. From ignorance to competence this coupled with intelligence it's struggle and it's common sense this boy becomes a man It's not some of the time, it's not most of the time it's all of the time or none of the time it's everything in everything, you do the best you can You're never satisfied, you've got to see this through This fight inside this battle without end with strength and motivation you'll never run again. Never run away, never run away, never run away, you've got to stand your ground and see this through. Most of us spend a lifetime running away
