Are you ready for the hard time?

Are you ready for the ball to top them all?

Are you ready for the long ride?

Are you ready for the rise before the fall?

Are you ready for the big game?

Are you ready for the 'coup de tat, et al'?

Are you ready for the long train?

Are you ready for the final curtain call?

Well, we're gonna kill 'em, gonna stomp 'em tonight

Yeah, we're gonna thrill 'em, gonna do 'em up right

Oh, we're gonna take 'em, gonna give 'em a fright

Tonight, tonight, tonight, tonight

Tonight (tonight) we're gonna lose control

Tonight (tonight) we're gonna have you all

Tonight (tonight) you're gonna beg for more

Tonight, tonight (tonight)

Did you come to see the bad boys?

Did you come to watch us shake, rattle and roll?

Did you come to hear us make noise?

Did you come to see us put it in the hole?

Do you know that it's the right time?

Do you know that it's the time to lose your mind?  
Do you know that it's not a crime  
If you're bending all the rules that you can find?  
Well, we're gonna break 'em, gonna make 'em tonight  
Yeah, we're gonna push 'em, gonna go for the light  
Oh, we're gonna stroke 'em, gonna do it all night  
Tonight, tonight, tonight, tonight  
Tonight (tonight), we're gonna lose control  
Tonight (tonight), we're gonna have you all  
Tonight (tonight), you're gonna beg for more  
Tonight, tonight (tonight, tonight)  
Well, we're gonna kill 'em, gonna stomp 'em tonight  
Yeah, we're gonna thrill 'em, gonna do 'em up right  
Oh, we're gonna take 'em, gonna give 'em a fright  
Tonight, tonight, tonight, tonight  
Tonight (tonight), we're gonna lose control  
Tonight (tonight), we're gonna have you all  
Tonight (tonight), you're gonna beg for more  
Tonight, tonight (tonight)  
Did you come to see the bad boys
