Cut away our smiles

put them on a shelf to decay

I don't care what you think

or what you have to say

we discriminate

and love the things that we're suppose to hate

why can't we love

but all we do is push and shove

and I wonder why we do the things we do to our
families

yeah I wonder why we do the things we know we should
not do

pressure's rising all the time

people standing in a line

just to hit and beat me down

I feel impressions all around

and I wonder why

selfish ambition

repetition

ceilings falling

caving down

please don't touch me

I won't hurt you

all these things, going through my head

and I wonder why we do the things we do to our
families

yeah I wonder why we do the things we know we should
not do

and I wonder why we do the things we do to our
families

yeah I wonder why we do the things we know we should
not do

do people touch and peel your skin

wrap you up in bandage, lame

patiently I hear the sound

the drop, a pin, the only sound
