lyrics and music by brandon fleming

intro(guitar only)

I've got a sharp thing in my mouth

i cut you with it daily

I raped you of your pride

with that sharp thing i stuck in your side

chorus [x2]

you know I don't mean to do the things I do to

you know I don't like it please help me

if i could come up with something nice to say

i might just be okay

dont you see the blood drip from my mouth

the pool that seeps about me

I'm scared to open my eyes

deep in my soul, there a fear lies

chorus

bridge [x2]

time has come, it is clear

don't look now it's almost here

nobody likes you if you tear them down

you watch the things you say

they might get you one day

you better watch your back here they come

chorus ( instrumental
